

***Invitation to a Round Table Meeting
in connection with the RSA Conference 2012***

Conducting your Network Security Orchestra

Monday, February 27th, 2012
2:00 – 5:00 p.m.
Moscone Center, Room 120, San Francisco

The event is proudly sponsored by

secunet

Conducting your Network Security Orchestra

Moderator: Wolfgang Schneider, Fraunhofer Institute SIT

New technological trends like cloud computing, increasingly integrating infrastructures like the internet of things or smart grids, and new user behaviour like social networking lead to a great number of new threats which in response create a fleet of new security technologies from the industry allegedly to protect from these threats. The management of IT security tools is getting more complex the more you have, and it is increasingly difficult to oversee which tools are beneficial on which level and how they cooperate or interfere together.

TeleTrusT invites you to discuss the views of major US and German players. Speakers from NIST (USA), RSA (USA), AUCONET (Germany), Corisecio (Germany), and Secunet (Germany) will present their views and participate in a panel discussion. The workshop will be opened by the State Secretary of the Ministry of the Interior and Federal CIO of Germany, Mrs. Cornelia Rogall-Grothe.

Programme

- 2:00 p.m. Welcome**
Wolfgang Schneider, Fraunhofer Institute SIT, Germany
- 2:10 p.m. Keynote**
Cornelia Rogall-Grothe, State Secretary and Federal CIO of Germany, Ministry of Interior, Germany
- 2:30 p.m. Dynamics of Network Security Intelligence**
Edward Schwartz, Chief Security Officer, RSA, USA
- 3:00 p.m. Three Things Your Network Security Can't Live Without**
Axel Roscher, Business Consultant, AUCONET, Germany
- 3:30 p.m. NIST's IT Security Agenda**
Donna Dodson, Chief, Computer Security Division, NIST, USA
- 4:00 p.m. InDiNet - A German Cloud Security Research Project**
Bruno Quint, CEO, Corisecio, Germany
- 4:30 p.m. Designing and Implementing a Verifiable High-Assurance System**
Kai Martius, secunet, Germany
- 5:00 p.m. End of workshop**
