Mr. Nguyen Manh Hung

CPV's Central Committee
Minister of Information and Communications

In 2019, Vietnam will announce the national strategy for digital transformation to build a digital society and economy. Cyber security is the basic condition and vital factor for a successful implementation of national digital transformation. Our prosperity depends on the Internet, but the Internet is not safe. Making the Internet safer is making our country more prosperous. Cyber space is the future of the world. The power of cyber security is like the military power in the real world.

THANK YOU LETTER

Dear our speakers, sponsors, exhibitors and delegates:

On behalf of Organizing Committee, IEC Group would like to express our sincere gratitude for your participation at Vietnam Security Summit 2019 taking place on April 17th at Melia Hotel. It's no doubt that our event joining over 1,000 delegates and visitors, 25 speakers and 30 sponsors and exhibitors would not have been a success without your enthusiastic support and presence.

We would like to extend huge appreciation to the honored speakers who made big effort to provide the in-depth insight on the latest cyber security trends and effective strategies against increasingly sophisticated cyber-attacks facing organizations and businesses. In fact, the comprehensive knowledge and interesting topics you shared made our conference more informative, practical and valuable.

Furthermore, our special thanks go to the valued exhibitors and sponsors for your generous support and investment. We believe that our delegates got out-of-this-world chance to explore the most advanced security solutions from leading IT vendors like you at the worth-while exhibition and kept updated with the latest cyber information at the conference.

Last but not least, we would especially like to thank all the delegates and visitors for taking time out of your busy schedule to attend our event. In reality, your presence helped to make this event a great success and we hope that you had satisfying moment and gained hands-on experience at our event.

Hopefully, Vietnam Security Summit this year reached its goal of being an ingenious platform bringing together government, enterprises across diversified sectors, top IT providers and seasoned industry experts to meet, discuss, share, network and cooperate in the field of cyber security.

Once more time, thank you to all participants for your interest and assistance. We look forward to seeing you again at Vietnam Security Summit 2020.

Yours sincerely,

Nguyen Van Anh

EXPOSITION HIGHLIGHTS

2019

Vietnam Security Exhibition this year drew the participation of nearly 30 booths from international and local industry leaders like RSA, Fortinet, Samsung, HPE, Forcepoint, Checkpoint, TechData, Huawei, Keysight, Ahnlab, Canon, BKAV, FPT, Viettel... showcasing the cutting-edge security innovations targeted attendees are looking for.

This expo offered visitors a wonderful chance to have hands-on experience with latest technologies such as Cloud/ Mobile/ Endpoint/ IoT/ Network/Data Security, Multi-factor Authentication, Biometrics, AI, Digital Risk Management, CCTV... Notably, delegates had direct talk with premier professionals from giant IT vendors in one place at one time to discuss further security challenges they are facing and adopt newest security solutions to protect their organizations in digital transformation environment.

NETWORKING ACTIVITIES

In the lead-up to Vietnam Security Summit 2019, **Networking Cocktail and Gala Dinner** was designed as the meet-ups that attracted over 100 top senior leaders from key industry verticals including government, banking & financial services, telecom, energy, transportation & logistics, and cyber security solution providers. This was seen as unique opportunity for key influencers and decision makers in the world of cyber security to network, share ideas and build relationship.

WHAT PARTICIPANTS SAY?

"Vietnam Security Summit 2019 is clearly an event which is working as central hub in Vietnam to collect different PPP (Public-Private Partnership) entities under same roof. This well recognized event is helping building connectivity which allows Government, Vendor as well as Industry members to discuss from critical infrastructure protection, issue which has been coming very important for every country economic well-being".

Mr. Mika Lauhde
Vice-President of Cyber Security & Privacy, Global Public Affairs
Huawei

"Vietnam Security Summit 2019 was a great opportunity for me to find many IT suppliers, and also meeting potential business opportunities".

Mr. Tran Van Thuyen
IT Expert
VP Bank

"The summit has attracted a good-sized crowd, reflecting the high level of interest in cyber security, from both public and private sectors. The presentations made by government officials are a laudable aspect of the program".

Dr. Hing Yan Lee
Executive Vice President, APAC
Cloud Security Alliance

"I'm very impressed with the attendance of this event. I think it's been oversubscribed, that's a good indication of how much interest that Vietnam organizations are focusing on cybersecurity. I'm also impressed with the way the event has been organized and drew the participation of both government and enterprise sectors.. It's my pleasure to be here again, and I hope to back for next year soon".

Mr. Ramon V. Karingal
CSO
RSA

"I would like to congratulate you on the successful event. Looking at the number of delegates attending the different sessions and also the vendor showcases, it really shows the keen interest in Digital and Cyber Security in Vietnam. I believe the event is very useful for enhancing the knowledge and expertise of the attendees in the field of Cyber Security".

Mr. Kah-Wee Lim
EcoSystem Risk - Payment Fraud
Disruption
Visa

"Vietnam Security Summit 2019 has gathered one of industry's best speaker line-ups I have ever known. I got insights into today's breaches and cyber-attacks through their informative and valuable presentations".

Mr. Nguyen Tam Quang
Manager
Thaco Group

"The Vietnam Security Summit 2019 meant a lot to Vietnamese businesses in general and Vietnam Airlines in particular, served as the hub for increasing awareness and exchanging information about Cyber Security in Vietnam".

Mr. Nguyen Nam Tien
Deputy Director of IT Department
Vietnam Airlines

MINISTRY OF INDUSTRY AND TRADE
OF THE SOCIALIST REPUBLIC OF VIETNAM

"Conferences like these are always exciting because we have a chance to experience first-hand the best technologies and products on the market that were showcased at the exposition".

Mr. Bui Thi Dung
Deputy head of IT Department
Department of Electricity Regulation
Ministry of Industry and Trade

"Thanks to the event, we approached and established relationship with many business partners as well as potential customers who want to learn more about the solutions that we are distributing in Vietnamese market".

Ms. Tran Thi Bao Tran
Director
Tech Data Advanced Solutions
(Vietnam)

"I am very impressed with the breadth of the information that were covered all in one day. To me, topics such as Cyber - attack in 2018, How to run a large SoC, and AI for security operation center were very interesting and useful. I hope coming back next year will bring me even more knowledge and information".

Mr. Do Kim Hien
Manager
